

Quality Policy

Vision Engineering Ltd is to provide a high quality, professional and efficient service to continuously meet or exceed customer expectation and regulatory requirements irrespective of where they are located. This achievement will result in securing efficiency, a strong customer focus and enhancement of long-term sustainability and profitability within the organisation.

The directors of VEL ensure sufficient resources are made available within the global Organisation; through communication, engagement and training to ensure that Quality is the aim of all members of the Organisation.

Through direction and support provided by the management team, each employee at all global levels will have an understanding of the importance of Quality Management, their responsibility to contribute to its effectiveness, their commitment to comply with requirements, and Quality Management's direct relevance to the success of the organisation.

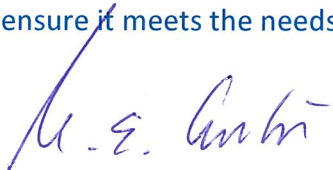

Equally, every employee is responsible for, and will be trained to perform duties required by his or her specific role.

VEL will work closely with global suppliers, contractors and other interested parties to provide a continuously improved service.

The Policy of promoting continual improvement and setting of objectives is in line with the framework laid down within ISO 9001:2015, ISO13485:2016 and ISO17025:2017 standards and within relevant legislations. These objectives will address the risks and opportunities within the Organisation as determined by top management.

The Quality Management System will be monitored, measured, evaluated and enhanced regularly to ensure it meets the needs of the business.
